The Fire - Weeden Buildings-Better Procuntions should be Tuken.

We never hear theory of "Fire" in Titusville althout experiencing something of the hornishmentions which must always be created when

sensations which must divide by created when that fearful aheru is heared on simptoned. Our light wonden buildings into me like so many itsider boxes, to be set off by a pulk, and to burn with unconquenable firry, and when one "grees up" to-bed at night, her unlawe the quick ing and comforting reflection that he may be as custing the functal pure, our which, before an other day shall daws, his field that, been resolved and his skeleton turned to bone dust. The burning out of m entire block at Santer-enty a few days ago, and the destruction of near ly a whole block here in Historitie about one war ago, should, with the community stated by

Jy a whole block here in Titurette anome one year ago, should, with the admonition year edy northing, furnish sufficient worning to induce our citizens to build of a less combination more rist than dry, pine lember, and to provide the host facilities afforded by modern invanion for authorities the combination of the combine that the configuration of the combine the combine of the provided that the combine the combine that the configuration of the combine the combine that the configuration is a second or combine the configuration of the combine the configuration of the combine the configuration of the combine combine

hast facilities afforded by modern invarion for evelogicability fires. We are informed that a sections attempt is on too for procuring a steam fire engine, it will require liberal subscriptions from those owning buildings here, but It will be almost. If the giving from the right hand to the left.

But with regard to the mutual do of which buildings here are constanted, we describe to all iteration to a fact that cannot be generally known among our building as, that a stone building throughout, with bown astone front, one be creted here at less cost than one mode of any other networks.

those who formlish the stone that this true. Testereds; moraling about 3 o'clock a fitter broke out in the rear basement of Swittle Biole, on Spring street. In a few minutes the building was one was sheet of firms. The fire engine was breegild promptly on the ground and the horse connected with the Thinsville mill race in the rear of the Albanile Bottle. The proprietors of the adjoining stores limitediately continenced removing their goods and furniture into the street. The fames soon reached the adjoining buildings, vir. Hartsell's stables up the over all shows a first that the street that fames soon reached the adjoining buildings, vir. Hartsell's stables up the over all Stove & Brongon's lackery on the wast. The scene now was exciting in the extreme. Only the composite of the Albanile Hottle, anapended building while the hardon's handed up palls of wast; in keep them wer. A large number of bleter he heed themselves to the there worked nobly. The fire was finally extinguished after it had reached H. L. Horreburg's building. Mr. C. D. Dudge of the limit of our fire do partment, was robbed of a gold chromounter watch, and a heavy gold chain valued at \$5's, while forcing the sentite on the root of these burg's building. It is supposed to laste been a concerted plan of a gang of thires. They however shilled to you bill no #8250 which he had on his person. Testerday morning about 3 o'clock a fire roke out in the rear basement of Smith's Hotel,
